

TOC Participant Carbon Footprint Agreement

Greetings Participants! Last year we were inspired by everyone's efforts to make The Taste of Cambridge as green as possible. We discovered how incredibly valuable it is to the city, the restaurants and the ticket buyers. This year we are hoping to do even better! You can do this by minimizing the amount of waste you create at the event. Because large-scale events generate a large amount of waste, the TOC committee is committed to minimizing the amount of generated waste. We ask that you support our efforts to be an environmentally sensitive event. Please read the following requirements and sign below:

Q: But, How Can I Be Green at the Taste of Cambridge 2010?
A: Easy! Follow these steps!

Bringing less into the event means having less to bring out of the event.

Food and other items often comes packed in plastic and cardboard. Unpacking them before you get to the Taste of Cambridge will spare you the hassle of bringing back styrofoam, cardboard and shrinkwrap. You will need to carry out all your packaging waste. The TOC volunteers will visit your booth to assist you in managing your waste.

Separate and contain waste and recyclables inside your area between pick-ups:

- Cardboard: flatten and stack
- Food Waste: pitch into your individual compost bucket provided by Save That Stuff!
- Recyclables: keep separate and pitch into bins marked for recycling
- Other Trash: plan on taking back with you

Rethink Your Food Servings. You will need to provide 1000 food samples! Please carefully plan how much food you will need to serve in sensible quantities and how it will be transported. Please avoid throwaway containers. You will need to carry out the waste at your booth at the end of event

I agree to not bring or use any non-compostable plastic or Styrofoam.
I agree to bring the least possible amount of packing material.
I agree to separate and contain recyclables inside my area.
I agree to carry back my waste to my restaurant.
